

Number.	District.	Date of return from each district.	Rainfall at Sud-der Station, in inches.	Character of the weather in the district, as far as known.	State and Prospects of the Crops at date.	REMARKS.
31	2. Pergunnahs ...	Sept. 16th	2.9	Rainy and cloudy	Good where inundation has not destroyed the crops.	
32	Dacca ...	" 8th	.8	Sultry ...	Good. Waters falling again.	
33	Backergunge ...	" 9th	2.2	Sun and rain ...	Favorable.	
34	Furreedpore ...	" 16th	2.8	Rainy ...	Good, except sugar-cane.	The floods abating.
35	Mymensingh ...	" 9th	2.7	Showery with thunder-storms.	No change. Jute being cut.	
36	Sylhet ...	" 9th	1.6	Sultry ...	Promising very well.	
37	Cachar ...	" 9th	4.0	Fair ...	River continues high, but very little damage done to crops by the flood.	
38	Chittagong ...	" 8th	2.6	Rain and sun ...	Generally favorable.	
39	Noakhally or Bulloah	" 8th	3.2	Very hot ...	Good	Much sickness.
40	Tipperah ...	" 8th	.9	Occasional showers.	Good.	
41	Hill Tracts of Chittagong	" 2nd	3.3	Mostly rainy ...	Good.	
42	Cuttack.				Excellent, except in some places where the crops have been damaged by flood.	
43	Balasore ...	" 16th	3.5	Rainy ...	In many places crops have suffered from want of rain, and there is much fear if the rain does not continue for a month.	Ryots of Parikud leaving their villages for want of rain.
44	Pooree ...	" 8th	2.0	Rain and thunder	Rice good; all other crops damaged.	
45	Hazareebaugh ...	" 16th	3.6	Rainy ...	Low land good; high land partially injured by blight caused by damp.	
46	Lohardugga ...	" 15th	3.9	Rainy and very cloudy.	Crops suffering from constant rain and want of sun.	
47	Maunbhoom ...	" 16th	4.2	Rainy ...	Favorable.	
48	Singbhoom ...	" 9th	1.6	Seasonable ...	Floods have submerged the land, but no damage is yet reported.	
49	Durrung ...	" 9th	.9	Rain and sun ...	Generally good; but in some places danger apprehended from the overflowing of the rivers.	
50	Nowgong ...	" 9th	5.0	Very sultry ...	Low lands somewhat damaged; other places good.	
51	Seebaugor ...	" 9th	2.3	Warm, damp, and unhealthy.	Rice favorably, reported throughout the district.	
52	Kamroop ...	" 9th	.4	Dry ...	Satisfactory.	
53	Luckimpore ...	" 2nd	6.7	Cool and rainy ...	Favorable; but in some places insects have done some injury to rice.	
54	Khasi and Jynteah Hills.	" 8th	2.3	Dry ...	Favorable.	
55	Naga Hills.				Rain improving the crops.	
56	Julpigoree ...	" 8th	3.7	Cloudy and hot ...	Healthy.	
57	Gowalparah ...	" 9th	.8	Rain, thunder, and lightning.	Rice suffering from insects; other crops doing well.	
58	Garohills* ...	" 9th	6.6	Rainy, but seasonable.	Fair.	* No rain gauge.
59	Darjeeling ...	" 9th	7.5	Healthy ...		
60	Cooch Behar ...	" 9th	*	Seasonable ...		

N. B.—The columns of the districts from which returns have not been received remain blank.

* Velocity of wind in miles per hour.

CALCUTTA.
The 16th September 1871.HENRY F. BLANFORD,
Meteorological Reporter to the Government of Bengal.

Results of the Meteorological Observations taken at the Surveyor-General's Office, Calcutta, from 8th to 14th September 1871.

Month.	Date.	Mean reduced barometer.	THERMOMETER.			Mean dry bulb.	Mean wet bulb.	Computed mean dew-point.	Mean degree of humidity.	WIND.			Rain.	Moon's phases.	GENERAL REMARKS.
			Highest reading.	Lowest reading.	Max. solar radiation.					Prevailing direction.	Max. pressure.	Daily velocity.			
		Inches.	°	°	°	°	°	°			lb	Miles.	In.		
Sept.	8th	29.612	90.8	78.8	148.8	84.3	80.6	78.0	0.82	S & S by E	...	44.9	Clear, cumuli, and cumulon. Lightning from 7 to 11 P.M. Drizzled at 4½ P.M.
	9th	558	88.5	81.4	148.7	83.6	80.6	78.5	.85	S by W & E by S	...	30.2	0.25	...	Overcast and cumuli. Lightning at midnight and 7 P.M. Slight rain at 6, 7, 8 A.M., 8½ and 7 P.M.
	10th	563	87.1	79.0	141.0	82.4	79.8	78.0	.87	E S E & S E	0.2	70.0	0.09	...	Chiefly overcast. Slight rain at 1½, 10½, 12½, 2½, 4, 6, and 6 P.M.
	11th	546	88.4	80.0	141.5	82.4	79.9	78.1	.87	E S E & E	0.5	152.1	0.02	...	Clouds of different kinds. Lightning at 7 and 10 P.M. Light rain at 1½, 2, 4, and 6 P.M.
	12th	528	81.5	78.6	...	79.8	79.0	78.4	.90	E S E & S S E	...	142.7	1.26	...	Overcast. Lightning at midnight. Slight rain from 3 A.M. to 1 and 3 to 6 P.M.
	13th	541	83.0	77.8	129.8	79.9	79.0	78.4	.95	S S E & S by E	...	99.6	0.48	...	Overcast and strati. Slight rain nearly the whole day.
	14th	605	83.7	78.5	114.8	80.1	79.7	78.9	.94	S by E	...	131.4	0.68	...	Overcast and strati. Slight rain from midnight to 7 A.M. and at 5 P.M.

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants.—The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity.—The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches, above the level of the ground.—The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

The extreme variation of temperature during the past seven days	...	18.0
The max. temperature during the past seven days	...	90.8
The max. temperature during the corresponding period of the past year	...	91.2
The mean humidity during the past seven days	...	0.89
The mean humidity during the corresponding period of the past year	...	0.83
		Inches.
The total fall of rain from 8th to 14th	... { by lower rain gauge	2.78
	... { by anemometer gauge	2.73
Ditto ditto average of seventeen previous years	...	3.41
Ditto between the 1st January and the 14th September	...	84.21
Ditto ditto ditto ditto, average of seventeen previous years...	...	56.98

GOPEENATH SEN,
In charge of the Observatory.

The 18th September 1871.

	Page.		Page.
Statement showing Rainfall, Weather, State, and Prospects of the Crops in the different districts of the Lower Provinces of Bengal for the week ending 23rd September 1871	640	Mean Pressures and Temperatures of the preceding table reduced to sea-level, with mean wind directions	646
Weekly Report of Rainfall compiled at the Meteorological Reporter's Office	642	Results of the Meteorological Observations taken at the Surveyor-General's Office, Calcutta, from 15th to 21st September 1871	647
Meteorological Telegraphic Report for the period 17th to 23rd September 1871	644	Abstract of the results of the hourly Meteorological Observations taken at the Surveyor-General's Office, Calcutta, in the month of August 1871	648
Abstract of Observations as received in the Meteorological Reporter's Office, Calcutta, during the half month 1st to 15th August 1871	645	Weekly Return of Traffic Receipts on Indian Railways	649

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of the Lower Provinces of Bengal, as reported to Government during the week ending 23rd September 1871.

Number.	District.	Date of return from each district.	Rainfall at Sud-der Station, in inches.	Character of the weather in the district, as far as known.	State and Prospects of the Crops at date.	REMARKS.
1	Bhaugulpore	Sept. 22nd	1.1	Very favorable	Very good, except where injured by floods.	Almost the whole of Berhampore sub-divn. under water again.
2	Monghyr	" 23rd	2.2	Seasonable	Gloomy and uncertain.	
3	Purneah	" 9th	3.3	Rain and sun	Crops which have escaped destruction by floods are good.	
4	Rajmehal	" 23rd	2.9	Rainy and cloudy	Rice same as before. Pulses partially damaged by inundation.	
5	Deoghur	" 23rd	2.6	Generally fair	Favorable.	No rain gauge.
6	Nya Doomka	" 23rd	1.6	Rain and sun	High land rice good; low land damaged by rain.	
7	Godda	" 23rd	*	Seasonable	Prosperous.	
8	Pakour	" 23rd	3.1	Dry, then rainy and cloudy.	Favorable.	
9	Jamtara	" 22nd	2.5	Very rainy. Sun much required.	Pretty good, except rice in low lands, which is suffering from too much rain.	
10	Patna	" 23rd	2.9	Rainy and cloudy	Some more heavy floods during the week, with what effect on the crops is not yet known.	
11	Gya	" 23rd	1.6	Fine	Good.	
12	Chumparan	" 16th	1.6	Cool east winds	Bhadoi crops considerably damaged by inundation.	
13	Sarun.	" 23rd	2.2	Rain and sun	Rice promising.	
14	Shahabad	" 23rd	2.2	Rain and sun	Improving, and the floods fast receding.	
15	Tirhoot	" 23rd	4.4	Variable	Ons much damaged. Amun still favorable.	
16	Rajshahye	" 21st	2.2	Rainy and hot	Still favorable.	
17	Bogra	" 15th	5.1	Rainy	Improving, but the river has risen again by six inches.	
18	Dinagepore.	" 23rd	5.5	Very rainy	Continue promising.	
19	Maldah.	" 23rd	0.4	Rain and sun	Good.	
20	Moorsheadabad	" 16th	5.0	Rain and storm	Rice crops generally good, but partially damaged in some places. Sugar-cane not good.	
21	Pubna	" 23rd	1.1	Fair and rainy	Favorable, but a peculiar blight is causing some injury to rice.	
22	Rungpore	" 23rd	1.2	Fair	Good.	
23	Burdwan	" 23rd	1.5	Cloudy and rainy	Ons reaped. Amun very good, except where destroyed by flood.	
24	Bancoorah	" 23rd	2.8	Favorable	Good on high lands; on low lands damaged by floods.	
25	Midnapore	" 22nd	4.0	Rain and sun	Good, except on inundated parts.	A little fever is prevalent, but it is not serious. Cattle suffering from disease.
26	Nudda	" 23rd	0.7	Fine	Floods subsiding slowly, and Kolai being sown.	
27	Jessore	" 22nd	0.9	Fine	Very cheering; floods rapidly subsiding, and Amun unexpectedly favorable.	
28	24-Pergunnabs	" 23rd	1.6	Rainy and cloudy	Good, except where injured by inundation and excessive rain.	
29	Dacca	" 15th	3.7	Cloudy and rainy	Very good.	
30	Backergunge	" 16th	1.9	Sunny and rainy	Favorable, except where seedlings have been destroyed.	
31	Furreedpore	" 23rd	0.3	Clear, but close	Rice good. Sugar-cane much damaged.	
32						

Number.	District.	Date of return from each district.	Rainfall at Sud-der Station, in inches.	Character of the weather in the district, as far as known.	State and Prospects of the Crops at date.	REMARKS.
35	Mymensingh ...	Sept. 16th	4.1	Rainy ...	Highly satisfactory. The rivers are still very high, but no damage whatever has been done to any crops.	
36	Sylhet ...	" 16th	5.5	Rainy and hot ...	Good.	
37	Cachar ...	" 16th	1.6	Cloudy and rainy ...	Very good.	
38	Chittagong ...	" 16th	2.4	Showery ...	Generally favorable, but in some places caterpillars are doing some injury.	
39	Noakhally or Bulloah ...	" 15th	7.5	Very wet and rainy.	Good; but this rain may prove injurious to crops in low places.	
40	Tipperah ...	" 15th	2.0	Occasional showers.	Good.	
41	Hill Tracts of Chittagong					
42	Cuttack ...	" 16th	1.5	Showery ...	Good.	
43	Balasore.					
44	Pooree ...	" 15th	2.2	Thunder-storms, followed by a gale from south-west, for two days.	Generally favorable; but at Bhoobunessur the crops have been affected by a blight.	
45	Hazareebaugh ...	" 23rd	3.0	Favorable ...	Rice on high lands somewhat blighted.	
46	Lohardugga ...	" 22nd	0.5	Fair, but hot ...	Very favorable.	
47	Maunbhoom ...	" 23rd	1.6	Favorable ...	High land rice good; it is gathered; low land 4 annas damaged.	
48	Singbhoom ...	" 16th	6.1	Seasonable ...	Very favorable.	
49	Durrung ...	" 16th	3.2	Hot ...	The district under water, but no injury to crops.	
50	Nowgong ...	" 16th	2.7	Cool ...	Good, except where injured by inundation. Sugarcane good.	
51	Sebsaugor ...	" 16th	Nil	Damp and unhealthy.	Pretty good.	
52	Kamroop ...	" 16th	2.0	Rainy ...	Not very favorable.	
53	Luckimpore ...	" 9th	4.4	Fine and warm ...	Satisfactory.	
54	Khasi and Jynteah Hills.	" 15th	3.5	Rain and sun ...	Favorable.	
55	Naga Hills.					
56	Julpigoree ...	" 15th	1.7	Cloudy and hot ...	Favorable.	
57	Gowalparah.					
58	Garohills ...	" 16th	2.6	Seasonable rain ...	Healthy.	
59	Darjeeling ...	" 16th	8.5	Healthy ...	Rice crops injured by insects and rain; other crops good.	
60	Cooch Behar ...	" 16th	*	Seasonable ...	Good	* No rain gauge.

N. B.—The columns of the districts from which returns have not been received remain blank.

* Velocity of wind in miles per hour.

CALCUTTA,
The 23rd September 1871.HENRY F. BLANCKE,
Meteorological Reporter to the Government of Bengal.

Abstract of Observations as received in the Meteorological Reporter's Office, Calcutta,

DURING THE HALF MONTH 1st TO 15th AUGUST 1871.

N.B.—The Barometric data are reduced for temperatures, and not for height above sea-level.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page by adding the weight of a column of air of the corresponding temperatures given in column 17. For stations of above 500 feet elevation, the reduction is made by Dippe's tables as given in Guyot's "Meteorological and Physical Tables."

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page by adding 1° Fahr. for every 350 feet.

Wind Direction.—The mean wind direction and its comparative prevalence are calculated from the whole number of wind observations recorded during the half month. The latter is given as a percentage of the whole number of observations. The mean direction is calculated in the usual way by Lambert's formula.

The above being all comparable, afford the data for constructing a meteorological chart for the half month, which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length proportioned to the prevalence of the wind. To these may be added the rainfall from the previous table.

CALCUTTA,
The 25th September 1871.

HENRY F. BLANFORD,
Meteorological Reporter to the Govt. of Bengal.

Results of the Meteorological Observations taken at the Surveyor-General's Office, Calcutta, from 15th to 21st September 1871.

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants.—The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity.—The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches, above the level of the ground.—The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

**Abstract of the Results of the Hourly Meteorological Observations taken
at the Surveyor-General's Office, Calcutta, in the month of
August 1871.**

LATITUDE 22° 33' 1" north. Longitude 88° 20' 34" east. Height of the cistern of the
standard barometer above the sea-level, 18·11 feet.

MONTHLY RESULTS.			Inches.
Mean height of the barometer for the month	29·603
Max. height of the barometer occurred at 10 A.M. on the 31st	29·859
Min. height of the barometer occurred at 4 P.M. on the 8th	29·359
Extreme range of the barometer during the month	0·500
Mean of the daily max. pressures	29·654
Ditto ditto min. ditto	29·545
Mean daily range of the barometer during the month	0·109
			°
Mean dry bulb thermometer for the month	82·9
Max. temperature occurred at 2 P.M. on the 11th	91·3
Min. temperature occurred at 5 & 6 A.M. on the 1st	77·5
Extreme range of the temperature during the month	13·8
Mean of the daily max. temperature	87·3
Ditto ditto min. ditto	80·0
Mean daily range of the temperature during the month	7·3
			°
Mean wet bulb thermometer for the month	80·5
Mean dry bulb thermometer above mean wet bulb thermometer	2·4
Computed mean dew-point for the month	78·8
Mean dry bulb thermometer above computed mean dew-point	4·1
			Inches.
Mean elastic force of vapour for the month	0·964
			Troy gram.
Mean weight of vapour for the month	10·36
Additional weight of vapour required for complete saturation	1·43

The Annual Administration Reports of the several Municipalities of the Patna Division for the year 1870-71.

From R. P. JENKINS, Esq., Commissioner of the Patna Division, to the Officiating Secretary to the Government of Bengal, Judicial Department,—(No. 314, dated Bankipore, the 13th September 1871.)

I HAVE the honor to forward herewith the annual administration reports, together with statements of receipts and disbursements, of the several municipalities in this division for the year 1870-71.

2. The delay in the submission of the report was owing to the non-receipt of the Arrah report until the end of August 1871.

3. The Municipal Act was not extended to any place during the year, and the number of municipalities is the same as in the previous year, viz.—

- | | |
|-------------|------------------|
| 1. Patna. | 4. Arrah. |
| 2. Gya. | 5. Mozufferpore. |
| 3. Chuprah. | 6. Durbhangah. |

The annexed statement will show at a glance the financial results of the several municipalities for the year under report:—

	Balance on 1st April 1870.			Receipts during the year.			Total.			Total charges during the year.			Balance.		
	Rs.	As.	P.	Rs.	As.	P.	Rs.	As.	P.	Rs.	As.	P.	Rs.	As.	P.
1. Patna	60,065	12	5	74,157	9	0	1,34,225	5	5	1,07,763	0	0	26,460	5	5
2. Gya	11,590	2	4	28,036	13	11	39,626	15	3	25,806	1	1	13,820	14	2
3. Chuprah	263	6	8	31,885	1	4	32,148	7	0	31,857	8	2	290	14	10
4. Arrah	1,859	9	3	12,151	6	6	14,010	15	8	12,837	4	5	1,173	11	3
5. Mozufferpore	7,343	10	7	24,964	5	6	32,308	0	1	27,722	11	5	4,585	4	8
6. Durbhangah	178	10	7	13,876	1	9	14,054	12	4	12,490	11	2	1,564	1	2

* This includes Rs. 37,169-11-9, the proceeds of the confiscated Wahabee estates.

4. The Patna municipality propose to spend the large balance in hand in widening the streets.

5. In Gya the surplus will be devoted to the improvement of the drainage of the town.

6. The expenditure incurred by the several municipalities does not call for any special remarks, save that the charge on account of police is extremely heavy in all the districts except Sarun, as will appear from the following figures:—

Total Cost on account of Police.

In Patna	... Rs. 25,323, or a third of the amount of receipts.
„ Gya	... „ 14,000, or half the amount of receipts.
„ Arrah	... „ 5,300, or nearly half the amount of receipts.
„ Mozufferpore	... „ 6,631, or a fourth the amount of receipts.
„ Durbhanga	... „ 7,660, or more than half the amount of receipts.
„ Chuprah	... „ 8,500, or less than a fourth the amount of receipts.

7. The chairman of the Gya municipality complains of the heavy cost under this head, and his remarks are, I think, worthy of consideration.

The police authorities should invariably, I think, consult the chairman and magistrate of the district regarding the requirements of each town.

8. In Patna an extensive market has been built by the municipality at a large outlay; a sum amounting to Rs. 33,000 was also spent by that municipality in the construction and repairs of roads.

9. The Chuprah municipality borrowed a sum of Rs. 4,700 from the funds of the town committee in his district without the sanction or cognizance of this office. This sum, though shown in the debit side, has, I observe, not been credited to the accounts. An explanation has been called for from the magistrate.

10. In conclusion, I beg to state that the several municipalities have, on the whole, conducted their affairs satisfactorily and carefully.

From A. C. MANGLES, Esq., Chairman, Municipal Commissioners, to the Commissioner of Patna,—(No. 13, dated Bankipore, the 1st May 1871.)

With reference to Government letter No. 2441 of the 27th April 1868, I have the honor to submit, in duplicate, my administration report of the Patna city municipality for the official year 1870-71.

Committee.—There has not been any noteworthy change in the constitution of the committee since my last report, except that the municipality laboured under singular disadvantages for the greater portion of the year in not having a vice-chairman or a permanent civil surgeon.

Meetings.—The committee met regularly twice a month all round the year, as prescribed in section 17 of Act III of 1864, for the disposal of monthly accounts and other miscellaneous business.

Cases.—A change was however considered necessary for the disposal of cases of breach of municipal laws and by-laws, and the commissioners met thrice in the week, instead of twice as formerly, to dispose of them. A tabular statement showing their proceedings during the year under report is herewith annexed for easy reference.

Name of municipal commissioners composing a meeting for trial of cases.	Last year's balance.	No. instituted during the year.	Total.	No. disposed of this year.	No. remaining on file.	Amount of fine imposed.
						Rs. As. P.
Chairman	1	11	12	12	...	2 6 0
Vice-chairman	...	4	4	4	...	5 0 0
District superintendent of police	12	37	49	45	4	19 0 0
Rai Sohan Lall and Sham Sool Hoda	9	100	109	97	12	73 14 0
„ Sookaj Bahadoor and Joykissen	33	168	201	155	46	214 5 0
„ Baijnath Pershad and Modun
„ Mohun Lall	13	205	218	191	27	163 13 0
„ Doorga Pershad and Izharudin	18	207	220	183	38	180 12 0
	81	732	813	686	127	658 2 0

The total number of municipal cases instituted during the year is 732, and the number disposed of is 686; whilst last year 465 cases were instituted, and 508, including previous balance, disposed of,—a fact showing that conservancy and public comfort were last year better attended to than formerly.

Assessment.—The maximum rate of 7½ per cent. continued in force throughout the year under report, but the assessment having been made in 1865, some six years ago, the municipal commissioners were of opinion that it should be revised, which was accordingly done, and resulted in an increase of Rs. 322-15 over the amount of the previous tax, 216 new houses having been brought under assessment.

Collection.—A change in the system of the collection of municipal tax was also tried as an experiment. The municipal commissioners being of opinion that the naib bukshees or tax collectors having only furnished as security a deposit of Rs. 800, it was dangerous to entrust them with bills for large amounts, it was resolved that the collecting staff should hold office in five distinct places on specified dates, previous intimation thereof being given to the people by *shamhar* and by beat of drum; the head collecting officer and two mohurris being stationed at the different places on the prescribed dates to receive the money and to grant receipts for the same to the parties. Whatever was not collected in this manner was made over to the *daffadars* for realization, thus bringing the chance of defalcation within very narrow limits. This system bids fair to succeed. The annexed statement shows the amounts yet outstanding.

Establishment.—The collecting establishment has cost Rs. 2,464, whilst the amount realized from house tax was Rs. 51,289-9, showing a percentage of Rs. 4-8 nearly.

Pounds.—The pounds were very carefully looked after, and the result obtained is furnished in the accompanying comparative statement:—

Official year.	Receipts.			Expenditure.			Increase.			Decrease.		
	Rs.	As.	P.	Rs.	As.	P.	Rs.	As.	P.	Rs.	As.	P.
1869-70	...	429	10 3	444	4 9	14	10 6	...
1870-71	...	478	13 9	455	10 6	23	9 3

showing that during the year under report the receipts were in excess of the expenditure, though, I am sorry to say, very little; still, small as it is, it is an improvement on last year, when there was a loss.

Civil.—The municipality was sued in the civil court in 24 cases; in 19 the municipality however has won.

Stamps.—During the year under report stamp fee under Act XVIII of 1869, schedule 1, was strictly enforced, showing a net profit to Government of Rs. 399 2-0. The municipal commissioners beg to represent the fact of a double stamp fee levied for the same amount, as in the following instance. Suppose Rs. 100 are drawn from the bank for payment of salary. The bank in the first instance charges one anna stamp fee for the cheque. The amount is then paid to A. who is also subjected to a further stamp duty of the same amount, so that for the same sum the municipality suffers in the first instance, and then the employé. This, the municipal commissioners are of opinion, is opposed to the tenor of the Act. They pray therefore that Government will be pleased to exempt them from the payment of the anna on each cheque drawn by them on the bank, on the condition of their securing to Government the levy of the stamp fee due from different parties to whom they may have occasion to pay.

Sanitation.—A new road from the chowk to the railway station for traffic in fair weather has been opened in the city; but it is to be regretted that Government has not yet paid its moiety to bridge and metal the same. Nevertheless the clearing away of the houses has helped to furnish the inhabitants with pure air to breathe. The question as to the best means for procuring good drinking water for the city was several times under discussion, but all proposals were abandoned on account of the large expenditure which would have to be incurred, and which the funds at our disposal would not admit of. A new market has been built in Patna for the public, which appears to be a decided success. This also has in a great measure improved the sanitary condition of the city, by supplying the want of an open airy place much needed in Patna.

Improvements.—To open new roads, and to widen the existing lanes passing through densely inhabited localities, are, in the opinion of the municipal commissioners, of primary importance; but their cash balance of Rs. 26,460-5-3 is quite inadequate to enable them to undertake any work of magnitude, though in Patna there is ample room for improvement.

Watering.—The whole length of the main road is now watered once daily, in the afternoon. This is not sufficient, but it is better than nothing; and I see no means of bettering the present state of things so long as our supply of water is small and procurable at so great a depth as it is at present. Many of the existing wells also dry up before the end of the hot weather, owing to the river having retired to so great a distance from the city.

Conservancy.—In the civil station conservancy has been satisfactorily attended to, but in the city proper it is not so good as could be wished. There are some serious drawbacks to the proper conservancy of this place. Most of the lanes in the city are so narrow that they will not admit of a scavenger's cart passing down them. To remedy this evil as much as possible the municipal commissioners have lately constructed nineteen single bullock carts, which have done a great deal of good. They are economical in both construction and maintenance; and as the number of these carts will go on increasing, they hope that in the course of a few years a change for the better in this respect will be effected.

Roads.—During the past year the municipal commissioners have paid great attention to the metalling of the roads, and with fair very results. In the early part of the year some difficulty having been experienced in procuring kunker to meet all requirements, and some pebbles being hard to obtain in sufficient quantities, it was resolved to try if stone prepared

from Luckhesseraï would take their place. Some four miles of road have been metalled with this stone, and, as far as we can judge at present, the experiment seems to be a successful one, and it is our intention to carry our experiment with it still further. The cost of the stone is a good deal in excess of either Soane pebbles or kunker; but we hope that it is much more durable, and by its durability it will repay us for the first outlay. It is difficult to obtain kunker free from dirt, and it is hard to make a decent road of Soane pebbles alone, it being difficult to make them bind.

Lighting has been introduced from the commencement of the year under report, and has given great satisfaction to all. The whole of the main street from the golah to the Patna railway station is lighted, there being some 211 lamps; and during the current year it is proposed to erect some eighty more along the road passing through the Sadikpore Bazaar, and so along the new line road leading from the chowk to the railway station, thus making two good lines for traffic both by day and night.

On the whole, I am of opinion that the commissioners may congratulate themselves on having had another successful year, and I trust that after a perusal of this report you will agree with me in so thinking.

Statement showing the amount outstanding on the 1st April 1871.

A. C. MANGLES,
Chairman of the Municipal Commissioners.

From A. V. PALMER, Esq., Chairman, Gya Municipality, to the Commissioner of Patna, —
(No. 6LF, dated Gya, the 31st May 1871.)

I HAVE the honor to submit the accompanying financial statement of the receipts and expenditure in the Gya municipality for the year 1870-71. There have been no works executed that call for special remark.

During the year under review the roads of the municipality, aggregating about twenty miles in length, have been maintained in good order.

One bridge has been constructed, and two large tanks emptied and cleaned.

The conservancy of the municipality has been looked after as well as circumstances would admit of. All the main sewers and drains have been opened and cleaned, but the chief present requirement is a fresh system of drainage.

The municipality is well situated with a fall towards the east, on which side it is bounded by the river Titalgao, and the defect of the present drainage is like that in all towns. The drains have been made very deep, and on no recognized or consistent principle. The result obviously is a quantity of unwholesome stagnant water every here and there, which will not be removed till the next flush of water raises its level.

With a view to remedy this evil a special committee of certain members of the municipal committee is now sitting. Their report has not as yet been presented to the Commissioner.

I may add that individually I do not anticipate any practical good will result from this committee. What appears to me to be required is, first, a careful survey of the entire municipality, by which the levels may be accurately determined; and this being done, secondly, to fill up the existing drains with dry earth, and to substitute instead in each street a simple surface drainage.

To carry out this, first the services of an experienced engineer would be required, and the work would doubtless be costly; but looking to the ultimate advantage that would be gained, I am satisfied that the money would be well spent. There is, however, at present great difficulty in obtaining the services of a competent engineer.

I may add that since 1869 money has been amassed for this project, and I trust that before long this work may be taken in hand.

I would call attention of Government to the very heavy charge the municipality have to meet on account of police.

The late district superintendent, Captain Daunt, and the present district superintendent, Mr. Bamber, have both been applied to with a view to the reduction of the municipal strength of the force, which in the opinion of the commissioners was unnecessarily large, and which, I regret to say, afforded very little protection to property.

Mr. Bamber has for the current year proposed a revision of the force as per margin, which has been concurred in by the commissioners as affording a partial relief, but this force, I am of opinion, could with advantage be further reduced.

I am happy to be able to record that the native municipal committee take an interest in the municipality, and during the year under review have been, as a rule, regular in their attendance at the meetings.

Although no special works have been undertaken, I venture to hope that the proceedings of the municipal committee will be considered satisfactory. The roads have been kept in thorough repair, the town clean; sanitary arrangements promptly attended to. Notwithstanding the periodical influx of hordes of pilgrims, no epidemic has occurred. The entire demand for the year has been collected, and the commissioners, were it not for the proposed drainage requirements, would have been able to reduce the rate of tax for the current year.

Annual return of receipts and disbursements of the Gya municipality, submitted by the Municipal Commissioners for the year 1870-71.

Place of operation.—Town of Gya and Sahebgunge.

Nature of fund or collection.—Tax on houses, surplus receipts of the pound at Gya, and rent of chowk-shop and others—

GYA MUNICIPALITY,
The 31st May 1871.

A. V. PALMER, Chairman.

From C. B. GARRET, Esq., Chairman of the Chuprah Municipality, to E. DRUMMOND, Esq.,
Officiating Commissioner of Patna,—(No. 14, dated Chuprah, the 26th April 1871.)

I HAVE the honor to submit the following report of the Chuprah Municipality during the past year.

Income.—The gross receipts of the municipality during last year are Rs. 32,148-7, out of which sum Rs. 263-5-8 represented the balance from the previous year. The gross expenditure on all heads was Rs. 31,857-8-2. Of the house tax for the year ending 31st March 1871, Rs. 1,900-4-5-10, or 11½ per cent. remained uncollected at the close of the year.

The small amount of our income as compared with the large extent of the municipality makes it impossible for us to do anything but works of ordinary maintenance. We are unable to attempt any considerable undertakings, or anything like conservancy on a large scale.

Roads.—During the year the only road that was repaired was the Sahebgunge main road. This was found an expensive work, as owing to the great amount of traffic on the road it was necessary to use only the very best materials. Metal was also stocked on the Rutenpoora lane, and the spreading has now commenced. This is a new work. The only other road work done consisted of trifling repairs to old roads.

Drainage.—Great inconvenience has always been experienced in Chuprah for the want of a proper system of carrying off the surplus rain water. Chuprah lies between a nullah on one side and a large chur on the other. The natural run of all the water is towards the "chur," but in the rainy season the chur becomes itself full of water, and to attempt to drain into it then is like draining into a sponge. A further difficulty is the narrowness and irregularity of the streets and lanes in the town, which make it impossible for us to keep cutcha drains in anything like working order. During the present year a large central drain has been dug, by which we hope to be able to carry off the water from the western side of Chuprah (Rutenpoora) to the Berhapoor nullah, and thence to the Gogra, in lieu of allowing it to run into the chur as heretofore. We have also constructed some length of pucca drains in the main street, which has answered very well; but the expense will, I am afraid, be a bar to its being largely extended.

Sluice Gate.—In October 1869 the high flood of the Gogra completely topped the sluice gate and swept into the town. To prevent the recurrence of a similar disaster, a strong bund has been erected, which stood the test of last year's rains very well.

Lighting.—Is not attempted.

Conservancy.—Is confined to the maintenance of staff of sweepers and carts for carrying off sweepings.

Vaccination.—A staff of vaccinators is maintained by the municipality; their labours have generally been successful. 4,359 persons were vaccinated during the year.

Breaches of Municipal Rules.—Two commissioners sit twice a week to try charges of the municipal laws. During the year 1870-71 391 persons were summoned, of whom 360 were punished with fine and 31 warned and discharged. The total amount of fines imposed was Rs. 442, being an average of Rs. 1-3-7½ for each defendant. The largest fine imposed was Rs. 20, and the smallest, one anna. No daily fine was necessary.

Vital Statistics.—624 persons were ascertained to have been born, and 843 died, within the municipal limits during the year 1870-71. This gives a percentage of 19 per 1,000.

The subjoined table will show the gross amount of house-tax raised.

	Rs.	As.	P.

C. B. GARRETT,

Chairman of the Chuprah Municipality.

From W. H. D'OLY, Esq., Chairman of the Municipal Committee of Arrah, to the Commissioner of Patna,—(No. 28, dated Arrah, the 26th August 1871.)

I HAVE the honor to submit the annual administration report of this municipality for the year 1870-71, accompanied by a statement showing the actual receipts and disbursements for the same year.

2. This municipality, which was created in 1865, has completed the sixth year of its existence. At the end of the year under report the municipal body consisted of fourteen persons, named below :—

Mr. W. H. D'Oyly,	...	Chairman.
" J. G. Charles,	...	Vice-Chairman.
" H. C. Levinge,	...	Member.
" J. Macnamara,	...	Ditto.
" W. D. Pratt,	...	Ditto.
" J. Collet,	...	Ditto.
Dr. J. Durant,	...	Ditto.
Revd. J. C. Thomson,	...	Ditto.
Moulvie Taki Uddeen Ahmed,	...	Ditto.
Chowdhri Leakat Hossain,	...	Ditto.
Baboo Baijnath Sahai,	...	Ditto.
" Harbans Sahai,	...	Ditto.
" Sant Pershad,	...	Ditto.
" Pratap Chunder Chatterjea,	...	Ditto and Municipal Secretary.

3. There have been ten meetings of the committee during the year under review. The attendance of the commissioners was generally good. Among the European members the attendance of Mr. Macnamara especially, and that of Dr. Durant, was very regular. Among the native members Baboo Baijnath Sahai, Moulvie Takee Uddeen, and Baboo Pratap Chunder Chatterjea, were regular in their attendance. Among the members who very seldom attended the meetings are to be named—Mr. W. D. Pratt, the district superintendent of police, Mr. Collet of Dinapore, Baboo Sant Pershad, and Chowdhri Leakat Hossain. The last named gentleman is, I regret to state, of little use to the committee.

4. There have been instituted 114 cases under Act III of 1864, out of which 58 cases resulted in convictions, and the remaining 56 cases were dismissed. The municipal commissioners Mr. Macnamara, Baboo Sant Pershad, Baboo Baijnath Sahai, and Moulvie Takee Uddeen, devoted much of their time in disposing of these cases.

5. The internal management of the municipality has been conducted with great satisfaction. I myself used to supervise all the work and proceedings, and Mr. Macnamara, the district engineer of roads, always used to take a lively interest in all municipal matters, and has rendered us very valuable assistance.

6. The sanitary condition of the town has been greatly improved during the year under review. An objectionable practice of bathing indiscriminately in all tanks and at all the wells, and the water of which was also used for drinking and culinary purposes, has been put a stop to, and certain tanks and wells have been reserved exclusively for drinking and culinary purposes.

The lower orders of people were in the habit of committing nuisances within the town wherever they liked; this has also been prevented.

The indiscriminate burning of lime, bricks, and potteries, all over the town was also another cause of annoyance, and measures have been adopted by which lime and bricks may be burnt without any fear of its affecting the health of the town. A latrine has also been erected close to the new collectorate for the use of the people attending the court. These measures have to a great extent improved the general health of the people, which is evident from the fact that there has been less sickness in the year under report than in previous years.

7. The total amount of income during the year under review was Rs. 14,010-15-8, and the total expenditure incurred was Rs. 12,837-4-5. The cash balance at the end of the year was Rs. 1,173-11-3.

8. The amount of house-tax assessed in the year in question was Rs. 12,041 which, with the unrealized balance of the previous year, made up a total of Rs. 13,058-0-9. Out of this sum Rs. 11,436-9-3 has been collected, and Rs. 76-11-6 has been reported to be irrecoverable. The net arrear at the close of the year amounted to Rs. 1,544-12-0.

9. The costs of several establishments have been reduced to a great extent. The amount expended on public works during the year under review was Rs. 4,125-12-4½. The conservancy expenditure has, without any detriment, been greatly reduced in the year in question. The total amount expended under this head was Rs. 1,289-4-9, which is very much short of the expenditure incurred in the previous year. Proposals were made for reducing the pay of the municipal police, but the commissioners were not prepared to effect any reduction in the force. The other items of expenditure do not call for any explanation. A bungalow has been purchased at a sum of Rs. 400 for the municipal office, as there was no accommodation available in the new collectorate.

10. The state of the roads is generally fair. Several of the town roads are annually subject to inundation from the Soane floods, and they often require repairs. Mr. Macnamara exercised a careful supervision over the road works, and the municipal overseer, Bokh Lal, has worked under him very satisfactorily.

11. In conclusion, I must record my gratitude to the municipal commissioners generally for the interest they have taken in the municipality, and for the valuable assistance they have continuously afforded me. Baboo Pratap Chunder Chatterjee has continued to act as secretary, although the commissioners felt bound to recommend a discontinuance of the salary that he used to draw; and my thanks are due specially to him and to Mr. Macnamara.

Municipal Improvement Fund under Act III of 1864, or Statement of Receipts and Disbursement for the year 1870-71.

ARRAH MUNICIPALITY,
The 26th August 1871.

W. H. D'OYLEY, Chairman.

From C. F. WORSLEY, Esq., Officiating Magistrate and Chairman of Tirhoot, to the Commissioner of Patna, Bankipore,—(No. 15, dated Mozufferpore, the 25th April 1871.)

I HAVE the honor to submit the administration report of the Mozufferpore municipality for the year 1870-71.

2. The annual statement already submitted shows the income and expenditure for the year under the different budget heads.

3. *House-tax.*—The house-tax was levied at the rate of 7-8 per cent. The amount collected amounted to Rs. 13,077-6-1 out of a demand of Rs. 13,310-1-1, as exhibited below, leaving only a small balance of Rs. 232-11-0 outstanding. Last year the collections were only Rs. 11,314-3-2 out of a demand of Rs. 12,833-10-3. The very satisfactory results of this year are accounted for by the change in the system of collection introduced in May 1870. The collecting establishment was then reduced from one warrant officer on Rs. 15 a month and three bill sircars receiving 4 per cent. on the collections, the total establishment costing Rs. 728 a year, to one mohurir and three peons on Rs. 276 per annum, and the collections were ordered to be made under the personal superintendence of Mr. O'Laughlin, the secretary, at the municipal bungalow, instead of through peons sent out with bills. The result of the working of the new system is most creditable to Mr. O'Laughlin, and proves that the native public fully appreciate their relief from the oppressions and extortions which common peons once removed from the immediate supervision of their superior invariably practise. It is universally admitted that the tax has never been collected with so little oppression; it has never been collected so thoroughly or with as great ease as in the past year.

4. *Committee.*—The native members of the committee have generally taken a more lively interest in the administration of the municipality.

Out of eleven meetings held during the year the chairman attended ... 5 meetings.

Vice-Chairman	11	"
District Superintendent of Police	8	"
Dr. E. J. Gayer	4	"
Mr. E. Dalgleish	2	"
Dr. B. S. Booth	3	"
Baboo Gopal Chunder Dass	7	"
Syed Imdad Ali Khan	6	"
Baboo Kedarnath Banerjee	2	"
" Mohesh Chunder Chatterjee	4	"
" Kaliprosuno Ghuttuck	4	"
" Woomesh Chunder Roy	3	"
" Wooma Churn Mojomdar	0	"
" Nundun Lall	3	"
" Nuthoo Lall Chowdry	0	"
Rai Nundiputh Matha Bahadoor	0	"
Syed Mahomed Tukee Khan	4	"
Syed Mahomed Ashkuree Khan	2	"
Baboo Aujhodhia Dass	3	"
" Aujhodhia Proshaud...	2	"
" Mothoora Dass	1	"

The proceedings of the meetings are carried on in Urdu, instead of in English as formerly; each member is now able to understand the whole discussion which takes place on any subject, and to take his full part in the proceedings.

5. *WORKS DONE.—Road.*—One and a half mile of road has been metalled; $5\frac{1}{2}$ miles of metalled roads repaired; $20\frac{1}{2}$ miles of kutcha road repaired; and $4\frac{1}{2}$ miles of side roads constructed.

Bridge.—A wooden bridge on the road leading from Serryagung to Baloo Ghât has been built and an embankment raised, which it is hoped will make the road passible at all times of the year.

Embankment.—A retired bund is in course of construction to keep the river out of the lake at a point where the old Doudpore bund was half eaten away last rains.

Drains.—Seven new pukka drains have been built in the town, and others have been repaired.

Bullock Shed.—A new bullock shed roofed with galvanized corrugated iron has also been erected.

6. *Lighting.*—The main roads of the town were lighted in dark nights.

7. *Watering.*—Ten miles of metalled road were watered twice a day; 18 new iron water carts have been constructed.

Conservancy.—The night-soil of the town is collected by the mohulla or by private sweepers into ten depôts, from which it is removed at night in closed iron carts to a field outside the town, where it is buried. The roads are kept clean by municipal sweepers and carts. Five public privies were built, and others are in progress. Various tanks and wells were set apart for a supply of pure water for cooking purposes.

9. *Local improvement.*—Amongst other works, one tank was dug out and cleaned; and the banks of six other tanks repaired.

10. Mr. O'Laughlin still remains secretary and engineer of the municipality. He is most attentive to his duties, is an excellent supervisor, and possesses the full confidence of the commissioners:—

M. SUFFERPORE;
Municipal Commissioners' Office,
The 19th April 1871.

C. F. WORSLEY,
Offg. Magistrate and Chairman.

Memorandum by C. F. WORSLEY, Esq., Officiating Magistrate and Chairman of Tirhoot Magistracy,—(No. 19, dated Tirhoot, the 5th May 1871.)

COPY forwarded to the Commissioner of Patna for his information. The large arrear of collections speak very badly for the administration of the municipality, and the vice-chairman's serious attention will be called to the subject.

From E. H. RUDDOCK, Esq., Assistant Magistrate and Vice-Chairman of Durbhungah Municipality, to the Magistrate of Tirhoot,—(No. 7, dated Durbhungah Municipality, the 3rd May 1871.)

With reference to your letter No. 17, dated 26th April last, I have the honor to submit my yearly report about the Durbhungah Municipality for the year 1870-71.

Collections.—There were collected during the year under report Rs. 13,876-1-9, against Rs. 14,398-0-9 in the previous year. The amount outstanding is Rs. 2,356-6-0. This appears a larger sum than it really is, as a considerable sum will have to be struck off on account of tax-payers who have either died or left. The subject is now under inquiry.

Conservancy.—The town has been kept fairly clean during the year. It will be some time before Durbhungah can get rid of all its dirty holes; but as a proof to show there is improvement in the health of the town, which I take to arise from improved water and from the town being kept cleaner, I may state that the health of the town during the past year has been very good, and that during the cholera last year from May to July, considering its size and its crowded population, it suffered comparatively slightly; in fact, afforded a marked contrast to the excessive mortality of the previous year. The roads were repaired during the year, and there are very few parts of the town where, provided the width of the streets allows it, one cannot drive.

Improvement.—The Durbhungah Raj continues to make improvements in the way of tanks, wells, &c. The tank promised and continued by Baboo Chitar Narian Chowdhoory has been completed at a cost of Rs. 1,000.

The curtailment made in the police force from the beginning of year under report has not affected its efficiency, the force was however getting lazy, as there was for several months no assistant superintendent of police here; but since the visit of Captain Skinner on tour, and the posting of Mr. Assistant Superintendent Johnston, it has become much more energetic. The municipal commissioners have given me satisfaction during the year.

Durbhungah Municipal Improvement Fund under Act III. of 1864 for the year 1870-71.

DURBHUNGAH MUNICIPALITY,
The 18th April 1871.

E. H. RUDDOCK,
Assistant Magistrate and Vice-Chairman.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of the Lower Provinces of Bengal, as reported to Government during the week ending 30th September 1871.

Number.	District.	Date of return from each district.	Rainfall at Sud-der Station, in inches.	Character of the weather in the district, as far as known.	State and Prospects of the Crops at date.	REMARKS.
1	Bhaugulpore	Sept. 29th	3.0	Favorable	The river has fallen a little. Aghany crops very good; no chance of Kulai on the durnahs.	The river began to fall on the 30th Sept. 1871.
2	Monghyr	" 30th	3.7	Fair	Bhadoi mostly damaged. Kulai cannot be produced.	
3	Purneah	" 16th	3.8	Rain and sun	Cold weather crops fair. Both the Bhadoi and Aghany crops have suffered, more or less, throughout the district.	
4	Rajmehal	" 30th	0.7	Rain and sun	Favorable for the Aghany rice.	
5	Deoghur	" 30th	1.0	Fair	Good, except low land rice.	No rain gauge.
6	Nya Doomka.	" 30th	*	Very rainy	All crops suffering from rain.	
7	Godda	" 30th	*	Very rainy	No change.	
8	Pakour	" 30th	1.8	Seasonable	Satisfactory.	
9	Jamtara	" 29th	2.0	Fair	Rice mostly damaged by floods and heavy rain.	The river is stationary.
10	Patna	" 30th	13.1	Rainy and cloudy	Good.	
11	Gya	" 30th	2.1	Seasonable	Amun good; all other crops damaged by rain.	
12	Chumparan	" 23rd	4.2	Cool easterly winds.	Crops considerably damaged by heavy rain.	
13	Sarun	" 30th	11.5	Very heavy rain; then fair.	Rice has suffered both from rain and flood.	Goral falling, but Natabhangah, Bhagirathoo & Jellinghee are rising. Cattle disease commencing.
14	Shahabad	" 30th	5.8	Rainy	Good, except where injured by inundation.	
15	Tirhoot.	" 22nd	4.1	Changeable	Generally favorable.	
16	Rajshahye.	" 23rd	1.0	Hot and then rainy.	Amun good. The cold weather crops destroyed by a second rise of the Ganges.	
17	Bogra	" 29th	7.8	Rainy	The floods have destroyed the Kulai again.	Floods subsiding.
18	Dinagapore	" 30th	2.9	Wet	Good.	
19	Maldah	" 23rd	2.9	Unusually hot	Generally good, except in the sudder sub-division, where ours is much damaged and amun a little.	
20	Moorshedabad	" 30th	1.2	Fair	Sugar-cane not good.	
21	Pubna.	" 30th	1.6	Fine and hot.	Favorable.	Floods subsiding.
22	Rungpore	" 30th	1.7	Clear	Good.	
23	Burdwan	" 23rd	0.2	Rain and sun	Amun very good where it has not been destroyed by the floods.	
24	Baneoorah	" 30th	0.9	Favorable	Damage by submersion of the crops continues.	
25	Beerbhoom	" 30th	0.8	Dry and good	Very good, except in the inundated parts (about 85 square miles.)	Floods subsiding.
26	Hooghly	" 23rd	3.6	Generally fine	Same as last week. Cold weather crops cannot be sown for the flood.	
27	Howrah	" 29th	1.6	Rain and sun	Good, except in Baraset and Satkhirah.	
28	Midnapore	" 22nd	0.1	Seasonable	Most promising.	
29	Nuddea	" 23rd	3.3	Sunny and rainy.	Favorable.	Floods subsiding.
30	Jessore.	" 30th	0.9	Dry and sunny	Rice good. Sugar-cane much damaged.	
31	24-Pergunnahs	" 23rd	4.1	Fine, and then stormy.	Very good.	
32	Dacca	" 23rd	6.0	Very hot	Good.	
33	Backergunge	" 23rd	4.9	Cloudy and rainy	Very good.	
34	Furreedpore	" 23rd				
35	Mymensingh	" 23rd				
36	Sylhet	" 23rd				
37	Cachar	" 23rd				

Number.	District.	Date of return from each district.	Rainfall at Sud-der Station, in inches.	Character of the weather in the district, as far as known.	State and Prospects of the Crops at date.	REMARKS.
38	Chittagong ...	Sept 22nd	3.8	Generally fine ...	Favorable on the whole.	
39	Noakhally or Bulloah ...	" 22nd	4.4	Rainy ...	Good.	
40	Tipperah ...	" 22nd	1.5	Occasional showers.	Good. Water has risen on the Megna side of the district: any further rise may affect the crops.	
41	Hill Tracts of Chittagong ...	" 16th	3.1	Rain and sun ...	Thriving.	
42	Cuttack ...	" 30th	2.6	Fair ...	Very good.	
43	Balasore ...	" 30th	2.5	Little rain ...	Excellent.	
44	Pooree ...	" 22nd	2.0	Hot and showery.	Crops in most places have suffered from scanty and late rain.	
45	Hazareebaugh ...	" 30th	1.2	Showery ...	Same as last week.	
46	Lohardugga ...	" 29th	3.7	Seasonable ...	Excellent.	
47	Maunbhoom ...	" 30th	2.1	Favorable ...	Improving.	
48	Singbhoom ...	" 23rd	1.3	Seasonable ...	Very favorable.	
49	Durrung.					
50	Nowgong ...	" 23rd	9.4	Rainy ...	Same as before.	
51	Sebsaugor ...	" 23rd	0.9	Warm, damp, and unhealthy.	Satisfactory.	
52	Kamroop ...	" 23rd	2.4	Rainy ...	Favorable.	
53	Luckimpore ...	" 16th	1.4	Dry and sultry ...	Satisfactory.	
54	Khasi and Jynteah Hills.	" 22nd	1.1	Cloudy and rainy.	Favorable.	
55	Naga Hills.					
56	Julpigoree ...	" 22nd	0.8	Sultry ...	Favorable.	
57	Gowalparah ...	" 16th	1.2	Rainy ...	Rain improving the crops.	
58	Garo Hills ...	" 23rd	2.1	Seasonable ...	Healthy.	
59	Darjeeling ...	" 23rd	1.2	Fair and healthy	Promising.	
60	Cooch Behar ...	" 23rd	0.8	Favorable ...	Fair.	

N. B.—The columns of the districts from which returns have not been received remain blank.

Published for general information.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page by adding the weight of a column of air of the corresponding temperatures given in column 17. For stations of above 500 feet elevation, the reduction is made by Dippe's tables as given in Guyot's "Meteorological and Physical Tables."

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page by adding 1° Fahr. for every 350 feet.

Wind Direction.—The mean wind direction and its comparative prevalence are calculated from the whole number of wind observations recorded during the half month. The latter is given as a percentage of the whole number of observations. The mean direction is calculated in the usual way by Lambert's formula.

The above being all comparable, afford the data for constructing a meteorological chart for the half month, which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length proportioned to the prevalence of the wind. To these may be added the rainfall from the previous table.

CALCUTTA,
The 30th September 1871.

HENRY F. BLANFORD,
Meteorological Reporter to the Govt. of Bengal.

Results of the Meteorological Observations taken at the Surveyor-General's Office, Calcutta, from 22nd to 30th September 1871.

Month.	Date.	Mean reduced barometer.	THERMOMETER.			Mean dry bulb.	Mean wet bulb.	Computed mean dew-point.	Mean degree of humidity.	WIND.			Moon's phase.	GENERAL REMARKS.
			Highest reading.	Lowest reading.	Max. solar radiation.					Prevailing direction.	Max. pressure.	Daily velocity.

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants.—The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity.—The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches, above the level of the ground.—The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

The extreme variation of temperature during the past nine days	...	11.3
The max. temperature during the past nine days	...	89.8
The max. temperature during the corresponding period of the past year	...	90.4
The mean humidity during the past nine days	...	0.86
The mean humidity during the corresponding period of the past year	...	0.85
		Inches.
The total fall of rain from 22nd to 30th	... { by lower rain gauge	1.04

Statement showing the amount of Traffic and Tolls on the Kondraparah Canal during the month of August 1871	684		

Beercool as a seaside resort during the months of April, May, and June.

NOTE BY THE OFFICIATING CHIEF ENGINEER OF BENGAL.

THE right bank of the lower reach of the Hooghly is low, wet, and unhealthy, down to about the point where the Russulpore river enters. There the alluvial coast is covered by a belt of sand hills, and this formation continues along the rest of the right bank of the river Hooghly, and along the northwestern coast of the Bay of Bengal for several miles.

These sand hills and ridges lie scattered for about twenty-four miles along the coast. They form an irregular line on the inland side, part of the range extending some miles from the sea, while on other spots there is a mere ridge of hills close to the coast. The heights of the hills vary from a few feet to thirty or forty, and the area of the high ground is enough to afford building sites for a considerable number of bungalows.

The ground is the property of zemindars, and it is easily procurable for building purposes at a low rent of, say, one rupee per acre per annum.

The cost of building is moderate, about 30 per cent. less than the Calcutta rates; thatching grass being abundant and cheap.

Beercool may be taken as the centre of the best sites; it is close to the coast, accessible from the sea, and generally well situated. There is a Government bungalow on one of the sites which has been frequently occupied; some experience has thus been gained as to the healthiness and other features of the place. Fresh water is procurable by digging in the sand some ten or fifteen feet deep: but the water takes a season to become quite good. Food is not procurable on the spot; rice, fowl, fish, sheep, and eggs can be had in the villages of the district: but good meat and all articles at all approaching to luxuries must be brought from Calcutta, Midnapore, or Balasore.

There is good riding and walking ground along the sea beach, the bathing is excellent,—a flat sandy shore, and there is some small game shooting. The temperature in the months of April, May, and June is 5° below that of Calcutta. The breeze is generally S.W., and considered healthy during these months; but when the rains set in fever becomes prevalent.

There are several routes from Calcutta to Beercool; three only need be noticed.

The best is from Calcutta down the Hooghly and along the coast to a creek near Beercool, where a small landing stage could be put up, and a narrow road made from the stage to the hill. The stage and road would cost about five thousand rupees. A small steamer can run from Calcutta to Beercool during fine weather in twelve or thirteen hours.

A second route is from Calcutta by steamer, to Boga on the Russulpore river, and thence by road to Beercool, the time required for the whole journey being, steamer eight hours, palky dāk about eight hours more.

There is a third route which may be taken by those who may not wish to go by water, viz.: from Calcutta to Diamond Harbour by road, across the river from Diamond Harbour to Cookrahatee, and by road from there to Beercool.

This route will occupy at least twenty-four hours' time. The road too is difficult from Cookrahatte onwards, and palky bearers very scarce.

If a sufficient number of applications for bungalow sites were secured, Government would probably undertake the cost of building the small jetty and making the road thence to the bungalows. And, most likely, the small steamer running to Orissa would call at Beercool or Boga, while the bungalows would be occupied.

This note is published with the object of giving the public all the information available on a subject which may be interesting to them.

The 21st September 1871.

Statement showing Rainfall, Weather and State and Prospects of the Crops in the different Districts of the Lower Provinces of Bengal, as reported to Government during the week ending 7th October 1871.

Number.	District.	Date of return from each district.	Rainfall at Standard Station, in inches.	Character of the weather in the district, as far as known.	State and Prospects of the Crops at date.	REMARKS.
1	Bhaugulpore	Oct. 7th	Nil.	Favorable	Good, except in the Kishengunge Division.	River rapidly going down.
2	Monghyr	" 7th	Nil.	Bright, with light West wind.	Rice partially damaged. The cold weather crops excellent.	
3	Purneah.	" 7th	Nil.	Fair and warm	No change.	
4	Rajmehal	" 7th	Nil.	Fair	Good, but rain will soon be wanted for high land crops.	No rain gauge. Cattle disease prevailing throughout.
5	Deoghur.	" 7th	10	Fine	Low land rice damaged; other crops fair.	
6	Nya Doomka	Sept. 30th	1.8	Dry	Favorable, except where injured by rain.	
7	Godda	Oct. 7th	•	Clear. Cold weather setting in.	Favorable.	
8	Pakour	" 7th	Nil.	Fine and very seasonable.	Satisfactory.	
9	Jamtara	" 6th	Nil.	Dry, but favorable	Ten anna crop expected; flood fast subsiding.	
10	Patna	" 7th	Nil.	Rainy, and then fair.	Rice pretty good; other crops much damaged by floods.	
11	Gya.	Sept 30th	15.3	Fair and bright...	Rice greatly injured by rain. Cold weather crops good.	
12	Chumparun	" 7th	Nil.	Fine	Rice promises well where not injured by floods.	
13	Saran	Sept. 30th	22.2	Stormy and heavy fall of rain.	Heavy damage caused by the unprecedented fall of rain.	
14	Tirhoot	" 28th	4.6	Rainy and warm.	Ous reaped. Amun in low lands has suffered and may suffer more, as the water is gradually rising again.	
15	Rajshahye					

Number.	District.	Date of return from each district.	Rainfall at Sud-der Station, in inches.	Character of the weather in the district, as far as known.	State and Prospects of the Crops at date.	REMARKS.
17	Bogra	Sept. 29th	2.9	Changeable	Favorable for the most part.	
18	Dinapore	" 30th	3.5	Cloudy and rainy	Favorable.	
19	Maldah	Oct. 5th	0.1	Hot and sultry	Amun good; but cold weather crop sown has been destroyed by a second rise of the Ganges.	Inundation sub-siding.
20	Moorshedabad	" 7th	•	Fair	The crops that have escaped destruction by floods and rain are good. The river is falling.	Not received.
21	Pubna	Sept. 30th	1.3	Seasonable	Promising	
22	Rungpore	" 30th	3.6	Rain and sun	Good.	The rivers are rising again.
23	Burdwan	Oct. 7th	0.3	Fair	Favorable.	
24	Bancoorah.	" 7th	0.2	Very fine	Very good.	
25	Beerbhoom	" 7th	0.2	Clear	Very good, except where destroyed by floods.	
26	Hooghly	" 7th	0.2	Clear	Water subsiding. Crops on inundated parts not much injured.	
27	Howrah	" 7th	0.1	Favorable	Good, except in the inundated parts (about 85 square miles.)	
28	Midnapore	" 6th	Nil.	Hot and dry	Kulai destroyed. Cold weather crops not good.	
29	Nuddoa	" 7th	0.5	Fair	Crops much damaged; the floods subsiding.	
30	Jessore	" 7th	0.8	Fresh air, but intensely hot.	Good, except in Satkhirah and on both sides of the Ichamutty.	
31	24-Pergunnahs	" 7th	Nil.	Fair	Most promising.	
32	Dacca	Sept. 29th	3.4	Fair and dry	Favorable.	
33	Backergunge	" 30th	2.2	Sunny	Rice good. Sugar-cane, the principal crop of the district, is damaged.	Floods subsiding.
34	Furzedpore	Oct. 7th	0.1	Fair, but hot and close.	Rice most promising.	Rivers falling rapidly.
35	Mymensingh	Sept. 30th	1.0	Fine, and then rainy.	Good.	
36	Sylhet	" 30th	3.9	Cool	Excellent.	
37	Cachar	" 30th	1.6	Fair	Generally favorable. The insects have disappeared.	
38	Chittagong	" 29th	1.4	Hot and fine	Good.	
39	Noakhally or Bulloah	" 29th	4.4	Hot and sultry	Good.	
40	Tipperah	" 29th	2.1	Occasional showers.	Good.	
41	Hill Tracts of Chittagong.	" 29th	2.1	Occasional showers.	Good.	
42	Cuttack.	" 29th	2.1	Occasional showers.	Good.	
43	Balasore	Oct. 7th	0.2	Very warm	Good; a little more rain is still needed for the rice crop.	
44	Poorce	Sept. 29th	6.2	Rainy and hot	Generally good.	Cholera has made its appearance at Birkosoripur.
45	Hazareebaugh	Oct. 7th	Nil.	Favorable	Favorable.	
46	Lohardugga.	" 7th	Nil.	Fair	High land rice suffering from want of rain.	
47	Maunbhoom	" 7th	Nil.	Fair	Very favorable.	
48	Singbhoom	Sept. 30th	2.8	Seasonable	Crops late, but looking well.	
49	Purrung	" 25th	0.1	Hot	Favorable.	Water subsided.
50	Nowgong	" 30th	3.4	Very sultry and unhealthy.	Favorable.	
51	Scebsaugor	" 30th	3.1	Damp, unsettled, and unhealthy.	Favorable.	
52	Kamroop	" 30th	1.7	Rainy	Favorable.	
53	Luckimpore	" 23rd	2.0	Seasonable	Satisfactory.	
54	Khasi and Jynteah Hills	" 29th	1.0	Cloudy and rainy	Favorable.	
55	Naga Hills.	" 30th	5.2	Wet and cloudy	Favorable.	
56	Julpigoree	" 30th	5.1	Wet and rainy	Good.	
57	Gowalparah	" 30th	5.1	Wet and rainy	Good.	
58	Garo Hills	" 30th	0.5	Rainy	Good.	
59	Darjeeling	" 30th	7.3	Seasonable and healthy.	Favorable on the hills; on the terai partially damaged.	Monsoons have appeared, but not with serious results.
60	Cooch Behar	" 30th	7.4	Favorable	Good.	

N. B.—The columns of the districts from which returns have not been received remain blank.

Published for general information.

FORT WILKINSON:
The 10th October 1871.

C. BEHNARD,
Offg. Secy. to the Govt. of Bengal.

Benares	29.633	83.6	60	S 77° E
Roorkee	29.663	84.9	8	S 45° W

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page by adding the weight of a column of air of the corresponding temperatures given in column 17. For stations of above 500 feet elevation, the reduction is made by Dippe's tables as given in Guyot's "Meteorological and Physical Tables."

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page by adding 1° Fahr. for every 350 feet.

Wind Direction.—The mean wind direction and its comparative prevalence are calculated from the whole number of wind observations recorded during the half month. The latter is given as a percentage of the whole number of observations. The mean direction is calculated in the usual way by Lambert's formula.

The above being all comparable, afford the data for constructing a meteorological chart for the half month, which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

CALCUTTA,
The 11th October 1871.

HENRY F. BLANFORD,
Meteorological Reporter to the Govt. of Bengal.

Results of the Meteorological Observations taken at the Surveyor-General's Office, Calcutta, from 1st to 7th October 1871.

Month.	Date.	Mean reduced barometer.	THERMOMETER.			Mean dry bulb.	Mean wet bulb.	Computed mean dew-point.	Mean degree of humidity.	WIND.			Rain.	Moon's phases.	GENERAL REMARKS.
			Highest reading.	Lowest reading.	Max. solar radiation.					Prevailing direction.	Max. pressure.	Daily velocity.			
		Inches.	°	°	°	°	°	°			H.	Miles.	In.		
Oct.	1st	29.766	90.4	81.5	163.2	84.8	81.0	78.3	0.81	S by W	...	129.0	Cirri and cumuli. Thunder at 12½ A.M., 2½. 4 and 5 P.M. Drizzled at 5½ P.M.
	2nd	742	90.3	81.0	162.0	85.4	81.0	77.9	.79	S & S by W	...	108.6	Clear and cumuli.
	3rd	748	91.7	83.0	140.3	86.2	80.0	76.7	.72	S by W & W by N	...	83.1	Clear and cirrostrati.
	4th	773	92.0	81.5	148.6	86.0	80.2	76.1	.73	W by N, W N W & N W	...	67.3	Clear and cumuli.
	5th	746	91.6	81.0	149.7	86.3	80.0	76.7	.73	N W & W N W	...	69.8	Clear and cumuli.
	6th	714	91.8	82.0	162.0	86.3	79.1	74.1	.69	W N W & W S W	...	73.2	Clear and cumuli.
	7th	675	90.6	80.5	163.3	85.1	78.2	73.4	.69	W S W & W by S	...	79.3	Clear, cirrocumuli and cumuli.

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants.—The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity.—The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches, above the level of the ground.—The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

The extreme variation of temperature during the past seven days	...	11.5
The max. temperature during the past seven days	...	92.0
The max. temperature during the corresponding period of the past year	...	91.2
The mean humidity during the past seven days	...	0.73

Emigration to British Colonies for the year 1870-71.

From DR. J. GRANT, Protector of Emigrants, Calcutta, to H. L. HARRISON, Esq., Officiating Junior Secretary to the Government of Bengal,—(No. 524, dated Fort William, the 28th September 1871.)

IN obedience to standing order conveyed in your office letter No. 976 of the 19th March 1870, I have the honor to submit herewith tabular statements exhibiting the number and description of coolies who have emigrated to the British colonies for the year 1870-71, the numbers who have returned within the same period, and the amount of their savings and remittances, so far as it has been in my power to ascertain this.

I take this opportunity of reporting that no emigrants have left for any foreign colonies, nor returned therefrom during the above period.

MAURITIUS.

Table exhibiting the number and description of East Indian emigrants who have left Calcutta for Mauritius during the year 1870-71, and the numbers returned therefrom during the same period, with the amount of their savings, remittances, &c.

MAURITIUS COLONY.					REMARKS.
EMBARKED ...	Men	1,230	Copy of a memorandum furnished by the Emigration Agent for Mauritius:— Rs. 13,738 were remitted through the Mauritius Emigration Agent's office by 28 returned emigrants in the official year nearly ended; many of the others who returned brought bills of exchange for various sums, a good number of sovereigns and other sterling money, besides a fair amount of jewellery; but no estimate could be formed of the value of property thus privately finding its way to this country.
	Women	494	
	Boys	90	
	Girls	74	
	Infants ..	Boys	...	24	
		Girls	...	25	
	Total number of souls	1,937	
	Total statute adults	1,806	
RETURNED ...	Men	1,203	
	Women	189	
	Boys	109	
	Girls	76	
	Infants ..	Boys	...	4	
		Girls	...	7	
	Total number of souls	1,588	
	Total statute adults	1,482½	
Estimated amount of savings brought back by the emigrants				Rs. 13,738	

WEST INDIES.

Fort William, the 28th September 1871.

J. GRANT, M D.,
Protector of Emigrants.

Rainfall, Weather and State and Prospects of the Crops.

Statement showing Rainfall, Weather and State and Prospects of the Crops in the different Districts of the Lower Provinces of Bengal, as reported to Government during the week ending 14th October 1871.

No	District.	Date of return from each district.	Rainfall at Sudder Station, in inches.	Character of the weather in the district, as far as known.	State and prospects of the crops at date.	REMARKS.
1	Bhaugulpore	Oct. 13th	Nil.	Favorable	Rice very good where not destroyed by flood. Rain necessary for rice on high lands; kulai not good.	
2	Monghyr	" 14th	0.5	Excellent	Rice partially damaged; cold weather crops good.	
3	Purneah	Sept. 30th	10.2	Rainy	Much damage done by inundation; cold weather crops good.	
4	Rajmehal	Oct. 14th	Few drops	Fair	Good, except where destroyed by the overflowing of Goomani.	
5	Deoghur	" 14th	Nil.	Dry and very powerful sun.	Much damage apprehended if there be no rain within a week.	
6	Nya Doomka	" 14th	0.1	Dry and cloudy	A blight is causing injury to rice. More rain required for high lands.	
7	Godda	" 14th	Nil.	Very dry and hot	High lands suffering from want of rain and low lands from the excess of it.	Cattle disease still prevailing.
8	Pakour	" 14th	1.6	Rainy and cloudy	Rain has done good to crops.	
9	Jamtara	" 13th	0.2	Very hot and dry	Rain much required, without which much loss apprehended.	
10	Patna	" 14th	0.4	Dry	In the Dinapore sub-division some 13 annas crops destroyed, and in the rest of the district 4 annas.	Floods have done great good to the land for the cold weather crops.
11	Gya	" 7th	0.7	Seasonable	Good.	
12	Obumparun	" 7th	Nil.	Fair, with westerly wind.	Rice good, other crops considerably damaged.	
13	Sarun.	" 14th	0.4	Fair and bright	Rice promising.	
14	Shahabad	" 7th	Nil.	Clear and good	Improving in some places	The waters gradually receding.
15	Tirhoot	" 5th	0.1	Very warm	Four annas damaged by floods.	
16	Rajshahye	" 6th	1.4	Sultry	Generally satisfactory.	
17	Bogra	" 7th	Nil.	Very hot and sultry.	Generally very favorable.	
18	Dinapore	" 13th	3.7	Fair and then rainy.	Amun good; cold weather crops destroyed by a second rise of the Ganges. Kulai bad.	Rivers falling rapidly.
19	Maldah	" 13th	1.7	Dry and then rainy.	Crops that escaped destruction by flood are good. Kulai being sown.	The river is falling very rapidly.
20	Mooredhabad	" 7th	3.1	Seasonable	Promising	
21	Pubna	" 7th	Nil.	Fair	Good.	Rivers still very full, but subsiding.
22	Rungpore	" 13th	3.1	Fair and rainy	Good.	
23	Burdwan	" 7th	Nil.	Hot	Favorable, but the crops will suffer if it does not rain soon.	
24	Bancoorah	" 14th	0.9	Fine	Good.	
25	Beerbhoom	" 14th	2.3	Clear and then rainy.	Rice very good, except where destroyed by floods.	
26	Hooghly	" 14th	Nil.	Favorable	Favorable.	
27	Howrah	" 13th	0.6	Rainy	Good, except in the inundated parts.	
28	Midnapore	" 14th	2.4	Rainy	The rain has done good to the surviving Amun crops.	Rivers that going down. Fever prevailing in some places.
29	Nuddea	" 14th	2.4	Rainy	The rain has done good to the surviving Amun crops.	
30	Jessore.	" 6th	Nil.	Sultry	Favorable.	
31	21. Pergunnahs.	" 7th	1.1	Sunny	Favorable.	
32	Dacca	" 14th	3.7	Rainy	Good.	
33	Bakerpore	" 7th	1.1	Sunny	Favorable.	
34	Furreedpore	" 14th	3.7	Rainy	Good.	
35	Mymensingh.	" 7th	8.4	Cold commencing	Good.	
36	Sylhet	" 7th	8.4	Cold commencing	Good.	

No.	District.	Date of return from each district.	Rainfall at Sudder Station, in inches.	Character of the weather in the district, as far as known.	State and prospects of the crops at date.	REMARKS.
37	Cachar	Oct. 7th	2.5	Fair	Very good.	
38	Chittagong	" 6th	0.5	Fine and hot	Favorable.	
39	Noakhally or Bulloah	" 6th	0.3	Very hot and sultry.	Good	Much sickness in the station.
40	Tipperah	" 6th	0.3	Warm	Good.	
41	Hill Tracts of Chittagong.	" 7th	0.2	Very hot	Good, but rain is required.	
42	Cuttack	" 14th	0.4	Good	Excellent.	
43	Balasore	" 6th	Nil.	Very hot and sultry.	Considerable loss has been caused by want of rain, and more apprehended if it does not rain soon.	A blight also is doing some injury.
44	Pooree	" 6th	Nil.	Very hot and sultry.	Considerable loss has been caused by want of rain, and more apprehended if it does not rain soon.	
45	Hazareebaugh.	" 6th	Nil.	Fine, sun very hot	Very favorable.	
46	Lohardugga.	" 14th	Nil.	Fine	Crops suffering much from want of rain.	
47	Maunbhoom	" 7th	Nil.	Seasonable	Rice very favorable.	
48	Singbhoom	" 7th	0.7	Rain and sun	Good.	
49	Durrung	" 7th	2.4	Sultry and unhealthy.	Favorable.	
50	Nowgong	" 7th	1.0	Damp and unhealthy.	Good.	
51	Seebsaugor	" 7th	Nil.	Dry	Favorable.	
52	Kamroop	" 7th	1.9	Dry and fine	Satisfactory.	
53	Luckimpore	" 7th	0.8	Very	Good.	
54	Khasi and Jynteah Hills	" 6th	1.1	Dry	Fair ; more rain required.	
55	Naga Hills.	" 7th	0.4	Rain, thunder, and lightning.	Good.	
56	Julpigoree	" 7th	1.3	Seasonable	Healthy.	
57	Gowalparah	" 7th	0.4	Fair and healthy.	Favorable.	
58	Garo Hills	" 7th	13.0	Seasonable	Fair.	
59	Darjeeling	" 7th				
60	Cooch Behar	" 7th				

N. B.—The columns of the districts from which returns have not been received remain blank.

Published for general information.

Discipline and management of Prisons in Her Majesty's colonial possessions	701	Meteorological Telegraphic Report for the period 15th to 21st October 1871	708
Statement showing Rainfall, Weather, State, and Prospects of the Crops in the different districts of the Lower Provinces of Bengal for the week ending 21st October 1871	704	Results of the Meteorological Observations taken at the Surveyor-General's Office, Calcutta, from 15th to 21st October 1871	707

Extract from the Supplement to the *Gazette of India*, dated 7th October 1871..

GOVERNMENT OF INDIA. HOME DEPARTMENT.

Discipline and management of Prisons in Her Majesty's Colonial possessions.

Copy of a circular despatch addressed by the EARL OF KIMBERLEY to the Governors of Colonies,—dated Downing Street, London, the 15th April 1871.

I TRANSMIT to you copies of a paper presented to Parliament, containing further correspondence respecting the discipline and management of prisons in Her Majesty's colonial possessions.

This is the third series of correspondence presented to Parliament arising out of the digest and summary relative to colonial prisons which accompanied the Duke of Buckingham's circular despatch of the 18th of June 1867.

That digest embodied in its second part an able and succinct statement of the chief conclusions drawn from the experience of this country and of others in the management and discipline of prisons. The papers now enclosed, as well as those enclosed in Lord Granville's circular despatch of the 28th of June 1869, show the progress which has been made in the several colonies to which they relate in giving effect to the principles laid down in 1867, and it may be convenient that I should shortly review the results of colonial experience as modifying or confirming rules grounded solely or chiefly on English experience.

I.—As to prison diet, the result of the correspondence which has passed is, I think, that while it does not conflict with the opinion expressed in the digest (page 75), that "hard fare ought to be made an instrument of punishment," it very much strengthens an opinion previously expressed in the same document (page 73), that "the proper amount and nature of prison diet is, more than any other part of prison discipline, a local question." The constituents of diet vary, of course, in different countries, as well as the climates and races of men, and equivalent measures of nourishment can be only approximately reached. But apart from the differences thence arising, you will find, on examining the correspondence, that nothing in it is more remarkable than the difference of the conclusions arrived at on this subject by well-informed and intelligent authorities under conditions to all appearances substantially the same.

Thus, while the Inspector of Prisons in Antigua (Parl. Paper, 1870, page 21), considers the negro prisoners of that island overfed on a diet which is equivalent to 176 oz. of white bread a week, the authorities of Mauritius, both civil and medical (Parl. Papers, 1868, page 84, § 21), do not consider as excessive a scale of diet equivalent on the average to about 250 oz. of bread a week. The difference of constitution between negroes and coolies cannot account for this divergence, and, indeed, might have been expected to bear the other way.

While therefore Her Majesty's Government continue to regard as highly important the principle of making hard fare a material element of prison discipline, they are not to be understood as aiming at uniformity on the subject, or as advising the indiscriminate adoption in the colonies of rules founded solely on English experience. They recommend, however, a close and careful attention to the considerations having a general applicability, which are set forth at pp. 73-6 of the Prison Digest, Part II. (Parliamentary copy), and the regulation in each case of diets by the results of practice and cautious experiment.

II.—With respect to classification, I have to call your attention to an error not unfrequently committed in classifying prisoners according to the technical designation of their offences, as felonies or misdemeanours. It was in pursuance of no defined system that crimes which had previously been misdemeanours, or had not been offences at all, came to be included amongst felonies. Some comparatively trivial offences are classed as felonies, and some grave crimes (as for example perjury and misappropriation of trust money) are misdemeanours. I speak of the law as it is in England, and I am not aware that in the colonies, where English law is in force, the division has been made more systematic. It will be found preferable that offenders should, as a general rule, be classified rather by the nature and measure of the sentence than by the legal term for the offence.

III.—In the prison correspondence there has been some denial of the expediency of applying the separate system to uncivilized or semi-civilized races. But I may refer to the decided opinion of Governor Hincks, as quoted at page 79 of the Prison Digest (Parliamentary copy) in its favor. "Real solitary confinement," he writes, "would produce the same effect on a black as on a white man;" and, independently of Sir Francis Hinck's high reputation as a Colonial Governor, his opinion on this question is of peculiar weight, as the penal settlement of British Guiana afforded him experience of the separate system on a large scale, unattainable elsewhere, I believe, in the tropical colonies. Mr. Longden, also, now Governor of Trinidad, writing from British Honduras, on the 22nd of January 1870 (Parl. Paper, 1870, page 4), speaks of solitary or separate confinement as a more salutary punishment than corporal punishment, and (according to his experience in Dominica) the only punishment prisoners really fear. Whatever may be the value of the considerations urged against the separate system, the following passage from a report of a Committee of the Legislative Assembly of New South Wales points at evils in the associated system which would go far to determine the question between the two systems. "The brutalizing effect" (of association) "upon the prisoners is admitted by all, and it is described by some as terrible in depravity. Practices grossly obscene are common, and on evidence possessing the consistency of truth, and which your committee do not feel warranted in doubting, unnatural crimes of the deepest dye are committed. The clergymen in attendance complain that as the men are never alone for a single hour during the whole time of their sentence, they literally have no opportunity for the exercises of religion, even if they are so disposed, and similar complaints are made by the men themselves" (Parl. Papers, 1868, page 102). This is written of men of European origin, but I am not aware that such things are less to be apprehended amongst depraved men of other races.

IV.—On the point of hard labour the tenor of the correspondence goes strongly to confirm the opinion expressed in the digest, and constantly reiterated by my predecessors and myself, that it is a mistake to sacrifice such efficacy of punishment as can only be obtained by penal labour, that is, labour by treadmill, crank, or shot drill, to any consideration of the immediate profit to be derived from the industrial labour of prisoners. The reports from the Governors of those colonies in which penal labour (as above defined) has been introduced are uniformly in its favour. For instance, a Board composed of the chief public officers in Sierra Leone, in a letter of the 27th of September 1869 (Parl. Paper, 1870, page 37), reported very strongly as to the deterrent effect of even a short term of labour on the treadmill. The administrator of St. Lucia, in his Blue Book Report for 1868, mentions that in the first year after the introduction to a limited extent of shot drill, the committals fell off from 592 to 291. In the colony of Ceylon (where the reform of prison discipline has been carried through with conspicuous ability and zeal by a Commission comprising the Chief Justice and other highly qualified public officers) the effect of shot drill and hard fare was reported, as far back as June 1868, to be that a sensible diminution had taken place in the number of habitual criminals; that the fear of shot drill and penal diet was deterring the ill disposed generally from crime; and that the Judges had felt themselves justified in greatly diminishing the scale of their sentences (Parl. Paper, 1870, page 56). In Antigua the effect of an increased severity of discipline (which does not appear to have included the general adoption of shot drill) was to reduce the committals from 822 in 1868 to 647 in 1869, about 26 per cent.; and of this reduction of 175, the diminution of re-commitments amounted to 150 (Parl. Paper, 1870, page 21.)

I need not enlarge upon the significance of these facts. You will find in the correspondence that objections to strictly penal labour sometimes proceed upon the supposition that it is intended absolutely to supplant industrial labour. This has never been recommended by Her Majesty's Government, except in the case of short sentences. And wherever the labour of the prisoners can be utilized by means of the crank or wheel without removing them beyond the precincts of the gaol, those forms of penal labour are obviously to be preferred to shot drill.

I have thought it desirable thus to draw your especial attention to some of the questions raised in the three sets of correspondence with the Governors of colonies on prison discipline, which have been successively laid before Parliament since 1867 and transmitted for your information; but the experience obtained in the colonies and represented in the correspondence forms an important addition to that of this country, and I recommend the study of it to the Governors of colonies and to others concerned in the management of colonial prisons. Attention to the results of these extended inquiries will prevent the undue over-ruling of generally approved principles by mere individual opinion, at the same time care should be taken to note the instances in which further experience or local circumstances point to a modification of the existing system.

I request that you will furnish copies of this despatch to such public officers in the colony under your Government as are connected with the administration of prison discipline.

Rainfall, Weather and State and Prospects of the Crops.

Statement showing Rainfall, Weather and State and Prospects of the Crops in the different Districts of the Lower Provinces of Bengal, as reported to Government during the week ending 21st October 1871.

No.	District.	Date of return from each district.	Rainfall at Sudder Station, in inches.	Character of the weather in the district, as far as known.	State and prospects of the crops at date.	REMARKS.
1	Bhaugulpore	Oct. 20th	0	Favorable	Good.	
2	Monghyr	" 21st	0	Excellent	Favorable.	
3	Purneah.	" 21st	0	Fair and cool	Good; cold weather crops being sown.	
4	Rajmehal	" 21st	0	Fine, but very hot	Good, but rain necessary for high land rice.	
5	Deoghur	" 21st	0.1	Dry	High land paddy being cut; the low land has improved.	
6	Nya Doomka	" 21st	0	Very dry with scorching sun.	Rice suffering for want of rain; cold weather crops promising.	
7	Godda	" 14th	0	Dry, and sun very powerful.	Rice will suffer from want of rain; cold weather crops turning well.	
8	Pakour.	" 20th	0	Fair	Good.	
9	Janitara	" 14th	0	Cool	Bhadoi cut. Amun good.	
10	Patna.	" 14th	0	Fair and bright	Rice better than expected.	
11	Gya	" 21st	0	Fair	Cold weather crops good.	
12	Chumparun	" 21st	0	Fair	Rice promising.	
13	Sarun	" 21st	0	Very fine	The surviving rice good.	
14	Shahabad	" 21st	0	Very warm	Cold weather crops good.	
15	Tirhoot	" 20th	0	Sultry	Rice good where not destroyed by inundations.	
16	Rajshahye	" 12th	1.5	Cool	Favorable.	
17	Bogra	" 13th	3.1	Fair	Favorable.	
18	Dinagepore	" 14th	0.2	Fair	Improving	
19	Maldah	" 20th	0.4	Fair	Improving	Rivers have fallen considerably. Good deal of sickness.
20	Moorshedabad.	" 14th	3.7	Rainy	Promising.	
21	Pubna	" 14th	0	Very fair, but the sun is very hot.	Good.	
22	Rungpore	" 14th	0	Fair	Good, but more rain necessary.	
23	Burdwan	" 21st	0	Hot	Crops suffering from want of rain.	
24	Bancoorah	" 21st	0	Hot	Crops suffering from want of rain.	
25	Beerbhoom.	" 21st	0	Dry	Very promising, except in the inundated parts.	
26	Hooghly.	" 21st	0.1	Dry and hot	Brighter; cold weather crops being rapidly sown.	
27	Howrah.	" 21st	0.1	Dry and hot	Brighter; cold weather crops being rapidly sown.	
28	Midnapore	" 21st	0.1	Dry and hot	Brighter; cold weather crops being rapidly sown.	
29	Nuddea	" 21st	0.1	Dry and hot	Brighter; cold weather crops being rapidly sown.	
30	Jessore	" 20th	0.2	Fair	Favorable.	
31	24-Pergunnahs.	" 20th	0.5	Fair and dry	Favorable.	
32	Dacca	" 20th	0.5	Fair and dry	Favorable.	
33	Backergunge	" 14th	2.7	Rainy	Favorable.	
34	Furreedpore.	" 14th	2.7	Rainy	Favorable.	
35	Mymensingh	" 7th	0.8	Fine	Good.	
36	Sylhet	" 14th	4.6	Very hot	Very favorable.	
37	Cachar	" 14th	2.2	Rainy and cloudy	Very good.	
38	Chittagong	" 14th	1.7	Fine and hot	Favorable.	
39	Noakhally or Bulloah.	" 13th	4.8	Rainy	Good.	
40	Tipperah	" 13th	2.0	Rainy	Good; somewhere damaged by insects.	
41	Hill Tracts of Chittagong.	" 13th	2.0	Rainy	Good; somewhere damaged by insects.	
42	Cuttack	" 21st	0.5	Partially rainy	More rain wanted. Increasing demand for irrigation.	Prices steadily rising.
43	Balasore.	" 21st	0.5	Partially rainy	More rain wanted. Increasing demand for irrigation.	
44	Pooree	" 13th	Few drops	Dry and hot	Much injury apprehended from want of rain.	
45	Hazareebaugh	" 21st	0	Favorable	Favorable.	Cattle disease diminishing.

No.	District.	Date of return from each district.	Rainfall at Sudder Station, in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
46	Lohardugga	Oct. 20th	0.3	Fine	... Favorable, but more rain necessary.	
47	Mamunbhoom	" 21st	0.1	Fine	... Crops suffering from want of rain.	
48	Singhbhoom	" 14th	1.7	Seasonable	... Very favorable.	
49	Durrung	" 14th	0	Rain and sun	... Good.	
50	Nowgong	" 14th	3.0	Sultry	... Favorable.	
51	Soesaugor	" 14th	1	Damp and unhealthy.	un-Satisfactory.	
52	Kamroop	" 14th	0	Dry	... Rice favorable.	
53	Luckimpore	" 14th	2.5	Dry and sultry	... Satisfactory.	
54	Khasi and Jynteah Hills.	" 13th	2.3	Fine and then rainy.	Good.	
55	Naga Hills	" 6th	0	Cloudy and sultry	Rice promising.	
56	Julpigoree	" 20th	0	Fair	... Fair.	
57	Gowalparah	" 14th	0.9	Rainy and cloudy	More rain is necessary.	
58	Garohills	" 14th	4.4	Seasonable	... Healthy.	
59	Darjeeling	" 14th	0.6	Fine and healthy	Favorable generally.	
60	Cooch Behar	" 14th	13.0	Seasonable	... Fair.	

N. B.—The columns of the districts from which returns have not been received remain blank.

Published for general information.

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants.—The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity.—The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches, above the level of the ground.—The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

The extreme variation of temperature during the past seven days	...	16.3
The max. temperature during the past seven days	...	89.8
The max. temperature during the corresponding period of the past year	...	91.6
The mean humidity during the past seven days	...	0.72
The mean humidity during the corresponding period of the past year	...	0.77
		Inches.
The total fall of rain from 15th to 21st	... { by lower rain gauge	Nil
	... { by anemometer gauge	Nil
Ditto ditto average of seventeen previous years	...	0.56
Ditto between the 1st January and the 21st October	...	88.24
Ditto ditto ditto ditto, average of seventeen previous years...	...	66.25

Statement showing Rainfall, Weather, State, and Prospects of the Crops in the different districts of the Lower Provinces of Bengal for the week ending 28th October 1871	710	Meteorological Telegraphic Report for the period 22nd to 28th October 1871	712
		Abstract of the results of the hourly Meteorological Observations taken at the Surveyor-General's Office, Calcutta, in the month of September 1871	713

Rainfall, Weather and State and Prospects of the Crops.

Statement showing Rainfall, Weather and State and Prospects of the Crops in the different Districts of the Lower Provinces of Bengal, as reported to Government during the week ending 28th October 1871.

No.	District.	Date of return from each district.	Rainfall at Sudder Station, in inches.	Character of the weather in the district, as far as known.	State and prospects of the crops at date.	REMARKS.
1	Bhaugulpore	Oct. 28th	0	Favorable	Very good.	
2	Monghyr	" 28th	0	Excellent	Favorable.	
3	Purneah.	" 28th	0	Fair and cool	Rice good; cold weather crops promising, mustard in particular.	
4	Rajmehal	" 28th	0	Fine	Good, but rain much needed for paddy and cold weather crops.	
5	Deoghur	" 28th	0	Dry	Rice being reaped; outturn small. Cold weather crops promising where late rain has fallen.	
6	Nya Doomka	" 28th	A few drops.	Sun very hot and powerful, but night and morning cold.	Most unfavorable. Want of rain has done great injury to paddy, and considerable loss is apprehended if it does not rain soon.	
7	Godda	" 28th	0	Fine and seasonable.	Generally good.	
8	Pakour.	" 27th	0.2	Rainy and then fair.	Rice good; cold weather crops somewhat damaged by the late rain.	
9	Jamtara	" 27th	0.2	Clear and bright.	Very promising.	
10	Patna.	" 28th	2	Fair and chilly towards the morning.	Rice promising; cold weather crops being sown.	
11	Gya.	" 28th	0.1	Fair	Rice on high lands good, on low lands utterly destroyed; cold weather crops fair.	
12	Chumparun	" 28th	0.1	Fair	Rice good on high lands and much injured on low lands by inundation.	
13	Surun	" 28th	0	Warm	Improving	
14	Shahabad	" 28th	0	Fair	Rice promising where not destroyed by inundation; cold weather crops good.	
15	Tirhoot	" 27th	0.3	Fine and seasonable.	Good.	
16	Rajshahye	" 19th	0	Fair	Good.	
17	Bogra.	" 27th	0.8	Fair	Favorable.	
18	Dinapore.	" 28th	0	Fine	Good; a little more rain necessary.	
19	Maldah	" 27th	0.8	Fair	Good.	
20	Moorsshedabad	" 28th	0	Fair	Good.	
21	Pubna	" 28th	0.4	Fine and seasonable.	Good.	
22	Rungpore	" 21st	0	Fair	Good.	
23	Burdwan	" 28th	0.5	Fair	Favorable.	
24	Bancoorah	" 28th	0.5	Fine	Good; a little more rain necessary.	
25	Beerbhoom.	" 27th	3.2	Dry and hot, then rainy and cool.	Full 16 annas crops expected.	
26	Hooghly.	" 28th	1.0	Rainy and then fine.	Rice that is not destroyed by inundation is good.	
27	Howrah.	" 27th	2.4	Partly rainy and partly fair.	Favorable as before.	
28	Midnapore	" 27th	2.4	Fair and then rainy.	Continue good.	
29	Nuddea	" 28th	2.3	Fair	Continue good.	
30	Jessore	" 27th	2.3	Fair	Continue good.	
31	24-Pergunnahs.	" 27th	2.3	Fair	Continue good.	
32	Dacca	" 27th	2.3	Fair	Continue good.	
33	Backergunge.	" 21st	0	Cool	Good.	
34	Furcedpore.	" 21st	0.4	Fair	Excellent.	
35	Mymensingh.	" 21st	0.4	Fair	Excellent.	
36	Sylhet	" 21st	0.4	Fair	Excellent.	
37	Cachar	" 21st	0.4	Fair	Excellent.	
38	Chittagong.	" 20th	0.2	Clear	Good.	
39	Noakhally or Bulloah.	" 20th	0.2	Clear	Good.	
40	Tipperah	" 21st	0.3	Fine	Good.	
41	Hill Tracts of Chittagong.	" 21st	0.3	Fine	Good.	

River is rapidly going down.

Rivers falling very fast; general health pretty good, but many cattle dying.

SUPPLEMENT TO THE CALCUTTA GAZETTE, NOVEMBER 1, 1871. 711

No.	District.	Date of return from each district.	Rainfall at Sadler Station, in inches.	Character of the weather in the district as far as known.	State and prospects of the crops at date.	REMARKS.
42	Cuttack.					
43	Balasore.					
44	Pooree	Oct. 20th	0.2	Dry and hot	Want of rain very much felt.	A blight has affected paddy in some places.
45	Hazareebaugh	" 28th	0.1	Favorable	Favorable.	
46	Lohardugga	" 27th	0	Fair	Very good, but a little more rain is necessary.	
47	Maunbhoom	" 23th	0.1	Fine	Crops suffering from want of rain.	
48	Singbhoom	" 20th	0	Seasonable	Very favorable.	
49	Durrung	" 20th	3.4	Cool	Good.	Sickness decreasing.
50	Nowgong	" 21st	1.2	Cool and pleasant	Good.	
51	Seesauger	" 21st	0	Dry	Favorable.	
52	Kamroop	" 21st	0	Dry	Favorable.	
53	Luckimpore	" 20th	0.3	Fine	Good.	
54	Khasi and Jynteah Hills.	" 20th	0.3	Fine	Good.	
55	Naga Hills	" 14th	3.1	Fair, then rainy	Favorable.	
56	Julpigoree.					
57	Gowalparah.					
58	Garo Hills.					
59	Darjeeling.					
60	Cooch Behar	" 21st	0	Seasonable	Fair.	

N. B.—The columns of the districts from which returns have not been received remain blank.

Published for general information.

* Velocity of wind in miles per hour.

CALCUTTA,
The 28th October 1871.HENRY F. BLANFORD,
Meteorological Reporter to the Government of Bengal.

**Abstract of the Results of the Hourly Meteorological Observations taken
at the Surveyor-General's Office, Calcutta, in the month of
September 1871.**

* **LATITUDE** 22° 33' 1" north. **Longitude** 88° 20' 34" east. **Height of the cistern of the
standard barometer above the sea-level, 18·11 feet.**

MONTHLY RESULTS.

			Inches.
Mean height of the barometer for the month	29·676
Max. height of the barometer occurred at 10 A.M. on the 28th	29·884
Min. height of the barometer occurred at 3 P.M. on the 12th	29·470
Extreme range of the barometer during the month	0·414
Mean of the daily max. pressures	29·734
Ditto ditto min. ditto	29·610
Mean daily range of the barometer during the month	0·124
<hr/>			
Mean dry bulb thermometer for the month	82·5
Max. temperature occurred at 2 P.M. on the 4th	91·0
Min. temperature occurred at 9 A.M. on the 13th	77·8
Extreme range of the temperature during the month	13·2
Mean of the daily max. temperature	87·3
Ditto ditto min. ditto	79·4
Mean daily range of the temperature during the month	7·9
<hr/>			
Mean wet bulb thermometer for the month	80·0
Mean dry bulb thermometer above mean wet bulb thermometer	2·5
Computed mean dew-point for the month	78·2
Mean dry bulb thermometer above computed mean dew-point	4·3
<hr/>			
Mean elastic force of vapour for the month	0·946
<hr/>			
Mean weight of vapour for the month	10·17
Additional weight of vapour required for complete saturation	1·47
Mean degree of humidity for the month, complete saturation being unity	0·87
<hr/>			
Mean max. solar radiation thermometer for the month	141·9
<hr/>			
Rained 23 days,—max. fall of rain during 24 hours	3·25
Total amount of rain during the month	9·93
Total amount of rain indicated by the gauge* attached to the anemometer during the month	9·25
Prevailing direction of the wind	S by W, S S E & S.

* Height, 70 feet 10 inches above ground.

The 31st October 1871.

GOPENAATH SEN,
In charge of the Observatory.

Rainfall, Weather and State and Prospects of the Crops.

Statement showing Rainfall, Weather and State and Prospects of the Crops in the different Districts of the Lower Provinces of Bengal, as reported to Government during the week ending 4th November 1871.

No.	District.	Date of return from each district.	Rainfall at Sudder Station, in inches.	Character of the weather in the district, as far as known.	State and prospects of the crops at date.	REMARKS.
1	Bhaugulpore	Nov. 4th	0	Favorable	Very good; cold weather crops good.	
2	Monghyr	" 4th	0	Excellent	Very good.	
3	Purneah.	" 4th	0	Fair and cool	Amun suffering from want of rain; cold weather crops promise well, but the kolye is not good.	Fever prevailing.
4	Rajmehal	" 4th	0	Favorable	Quarter of the rice will be destroyed for want of rain.	
5	Deoghur	" 4th	0	Favorable	Paddy good; three-quarter of the cold weather sowings abandoned.	
6	Nya Doonka.	" 4th	0	Days hot, nights dry and cold.	Good. Reaping commenced in some places.	
7	Godda	" 4th	0.5	Fair	Satisfactory.	
8	Pakour	" 4th	0	Very fine and seasonable.	Rice better than expected. Cold weather crops promising; 12 to 14 anna crops expected.	
9	Jamtara	" 4th	0	Fine and dry	Rice in the south destroyed, in the north good. Cold weather crops excellent, except in very low lands.	
10	Patna	" 4th	0	Fine and seasonable.	Rice promising; sowing of the cold weather crops commenced.	
11	Gya.	" 4th	0	Fine and seasonable.	Very good.	
12	Chumpann.	" 4th	0	Changeable	Very favorable.	
13	Saran	" 4th	0	Bright and clear	Good, but rice on high lands is suffering from want of rain.	
14	Shahabad	" 4th	0	Fair	All crops much improved.	Floods quite subsided. Some sickness and cattle disease prevailing.
15	Tirhoot.	" 4th	0	Fine, but warm	The remaining rice is good; cold weather crops promising.	
16	Rajshahye	2nd	0	Fair	Good.	
17	Bogra	Oct. 27th	0	Fair	Favorable.	
18	Dinagapore	Nov. 4th	0	Cool	More rain necessary for the crops.	
19	Maldah	" 4th	0	Fine	Good.	
20	Moorshedabad	" 4th	0	Clear	The amun that is not destroyed by inundation is very good.	
21	Pubna.	" 4th	0	Favorable	Satisfactory.	
22	Rungpore	Oct. 28th	0	Dry and cold	Very good.	
23	Burdwan	Nov. 4th	0	Fine	The surviving rice good; cold weather crops coming up well.	Cattle disease in most places; health of the people better than could have been expected.
24	Bancoorah	" 4th	0	Fine	Continue favorable	Inundation rapidly subsiding.
25	Beerbhoom	" 4th	0	Fair	Good where there has been no inundation.	
26	Hooghly	" 4th	0	Rainy and sunny	Favorable.	
27	Howrah	" 4th	4.5	Wet and disagreeable.	Good	
28	Midnapore	" 3rd	0	Fair and cool	Excellent.	
29	Nuddea	" 4th	0	Fair	Good.	
30	Jessore	" 4th	0	Fine	Good.	
31	24-Pergunnahs	" 4th	0	Fair	Good.	
32	Dacca.	" 4th	0	Wet, rainy, and then cool.	Good.	
33	Backergunge	Oct. 28th	5.5	Fair	Good as far as known.	
34	Furreedpore	" 28th	1.4	Fine	Good.	
35	Mymensingh	Nov. 4th	0	Fine	Good.	
36	Sylhet	Oct. 27th	1.4	Fine	Good.	
37	Cachar.	" 28th	6.0	Fine	Good.	
38	Chittagong.	" 27th	12.2	Fine	Good.	
39	Noakhally or Bulloah.	" 27th	12.2	Fine	Good.	
40	Tipperah	" 28th	4.5	Fine	Good.	
41	Hill Tracts of Chittagong.	" 28th	4.5	Fine	Good.	

SUPPLEMENT TO THE CALCUTTA GAZETTE, NOVEMBER 8, 1871. 717

No.	District.	Date of return from each district.	Rainfall at Sudder Station, in inches.	Character of the weather in the district, as far as known.	State and prospects of the crops at date.	REMARKS.
42	Cuttack	Oct. 28th	0.2			*No information supplied. Merchants from the south are bringing up rice; price is to rise.
43	Balsore	" 28th	4.4	Good	... Excellent.	
44	Pooree	" 27th	1.2	Sunny	... Great loss in rice in many places from want of rain; in others it is promising.	
45	Hazareebaugh	Nov. 4th	0	Favorable	... Favorable.	More than one-third of the crops will be lost for want of rain.
46	Lohardugga.	" 4th	0	Fine	... More than one-third of the crops will be lost for want of rain.	
47	Maunbhoom	" 4th	0	Fine	... Very favorable.	
48	Singbhoom	Oct. 27th	0.7	Seasonable	... Good.	Crops slightly damaged by the unusual rain.
49	Durrung.	" 27th	5.4	Growing cold	... Satisfactory.	
50	Nowgong	" 28th	2.5	Damp and unhealthy.	... Rice on the hills cut and gathered; in other places it is good.	
51	Sebsaugor	" 28th	1.0	Rainy	... Fair, but more rain required.	Less favorable owing to want of rain.
52	Kamroop	" 28th	1.2	Fine and cool	... Healthy.	
53	Luckimpore	" 28th	2.9	Rainy	... Progressing favorably.	
54	Khasi and Jynteah Hills.	" 21st	0.8	Foggy and hot	... Fair.	
55	Naga Hills	" 27th	0	Fair	...	
56	Julpigoree	" 28th	0.4	Foggy and rainy	...	
57	Gowalparah	" 28th	0.7	Seasonable	...	
58	Garo Hills	" 28th	0	Fair	...	
59	Darjeeling	" 28th	0.2	Seasonable	...	
60	Cooch Behar	" 28th				

N. B.—The columns of the districts from which returns have not been received remain blank.

Published for general information.
